Motivation

I aim to use design to better the world where we live in and the people that live in it, I believe that design is truly one of the key tools for making life sustainable holistically (environmental, social and governance).

Skills

- # Product design & development
- # Project management
- # Design Thinking
- # Design research UX
- # Creative problem-solving
- # AI x Design
- # Service Design
- # Provider management
- # Communication & Teamwork
- # Leadership, Drive & Initiative
- # Change adaptation
- # Work in agile environments
- # Self-learning
- # 3D + 2D Solidworks CAD / FEA / Drawings
- # Productive processes
- # Rendering (Keyshot & 3ds Max)
- # Graphic design (Illustrator)

Education

Human Centered Service Design - 11/2024 - 12/2024.

AI x Design Thinking - 11/2024 - 12/2024.

Human Centered-System Thinking - 04/2023 - 05/2023.
IDEO U.

Resolutive Creativity grade - 02/2023 - 03/2023.

Research for Design UX grade - 10/2022 - 11/2022.
ELISAVA, UPF.

SolidWorks working with large assemblies certificate

CimWorks, Action: 5921 / Group: 12021, 11/2021.

University degree

Degree in Industrial engineering & product design, EET, UPC, 2013 - 2018.

Honours in final degree project, 2018.

Class delegate, 2013.

International studies

Product Design, Honours, FAAD, UDP, Santiago, Chile, 09/2016 - 12/2016.

IGCSE & secondary school

LOS OLIVOS ENGLISH SCHOOL, Godella, Valencia, 1995 - 2012.

Work experience

Product designer and mechanical engineer

11/2018 - Present, Submer Technologies, Barcelona, Spain.

- E2E design and productization of SmartPod, company's core product line.

- Inventor in patent of SmartPod product family.

- Lead as designer and mechanical engineer in more than 40 projects of multidisciplinary teams for the development of different products.

- Creative leader in product ideation.
